We also hereby certify that LOT 13A and PARCEL A are exempt from sanitation review by the Department of Environmental Quality pursuant to ARM 17.36.605 (2) (b) (i) & (ii) as a parcel that has no existing facilities for water supply, wastewater disposal, or solid waste disposal other than those that were previously approved by the reviewing authority under Title 76, Chapter 4, Part 1, M.C.A., or that were exempt from such review because no new facilities will be constructed on the parcel and the division of land will not cause approved facilities to violate any conditions of approval, and will not cause exempt facilities to violate any condition of exemption.

Also, Tract 1 is exempt from subdivision review by the Department of Environmental Quality pursuant to Section 76-4-125 (2)(e)(ii), M.C.A., (a remainder of an original tract created by segregating a parcel from the tract for purposes of transfer if: the remainder is 1 acre or larger and has an individual sewage system that was constructed prior to April 29, 1993, and, if required when installed, was approved pursuant to local regulations or this chapter).
