

# Bluetooth™ PDA and PC Adapter Combo Card

## Add Bluetooth wireless technology to your PDA or notebook

Belkin brings you the fast and simple way to wirelessly connect your computing devices—with breakthrough *Bluetooth* technology. This great new technology gives you a seamless, fast connection between your PDA and notebook computer, and other devices that are set up for *Bluetooth* wireless operation. These can include printers, hard drives, your cell phone, and more.

With the *Bluetooth* PDA Adapter Card from Belkin and your available CompactFlash® (CF) Type I slot, you can print, transfer files, exchange business cards and other information, without cables.

You can slip your *Bluetooth* PDA Adapter Card into the included PC Adapter Card and create cable-free connections between your notebook computer or PC and *Bluetooth* devices. The PC Adapter Card enables the user to effortlessly transfer data to other *Bluetooth* devices—such as desktop or notebook computers, input devices, PDAs, printers, and even mobile phones—without wires. Connect with up to seven other *Bluetooth* devices at a time.

F8T006ukPC

## Package Contents:

- *Bluetooth* PDA and PC Adapter Combo Card
- CD-ROM
- User Manual
- Quick Installation Guide
- Registration Card

## Benefits:

- Works with any device enabled with *Bluetooth* v1.1 technology
- Offers built-in security using 128-bit encryption and authentication, so you can securely access any *Bluetooth* device
- Installs easily
- Allows you to work at distances of up to 10 metres\*
- Provides effortless wireless communication through user-friendly software
- Keeps your PDA or notebook batteries running longer (works with low-power consumption)
- Offers compact and convenient mobile solution
